

Subject: IMPORTANT Information About ASAP BioPharma Conference Livestream Access

We look forward to you joining the virtual 2020 ASAP BioPharma Conference. The three-day event will be livestreamed on Vimeo, with the conference showcase providing access to the live feed and on-demand sessions. We are preparing to migrate all registrant emails to Vimeo so attendees can create their own Vimeo account which is necessary in order to view the conference. Below is the sequence of alerts you will receive from the Vimeo platform, and attached is detailed information on setting up your account, accessing the conference livestream program, and whitelisting information.

You will receive two emails from Vimeo:

Email # 1

- Open your email and find the communication from Vimeo with the subject line **“You’re invited to join the ASAP team”**
- Click **“Accept invite”** in the email
- Follow the prompts to set a password on the account

Email # 2

- The second email will ask you to verify your email address
- Once you have created your account and verified your email address, copy and paste the following URL into your browser <https://vimeo.com/showcase/7512579> to view the conference livestream program

I’d like to strongly advise that you review the information for corporate firewalls and whitelisted domains in the attached document prior to the week of the conference and make sure your access and account work properly.

Please let me know if you have any questions regarding this information.

Warm regards,
